What Do A

# Life Preserver

And A Flu Shot

## Have In Common?

If You Have

# Diabetes,

Ask Your Doctor.

If you live with diabetes, you're more likely to die with the flu. Just ask the families of the 30,000 people with diabetes who died of flu or pneumonia complications. Then ask your doctor for a life-saving flu shot for you and those closest to you, and about the other risks you face when you face diabetes. Because with diabetes, **prevention if control, and control is you life line.**

This message is brought to you by

CDC and your health department.
