### Raccoon Tests Positive For Rabies In Colchester

A raccoon tested positive for rabies in the town of Colchester. This is the first laboratory confirmed positive case of rabies in Delaware County in 2026.

A rabid raccoon exposed two dogs in the town of Colchester. The raccoon was sent for testing to the New York State Department of Health Wadsworth Laboratory. There were no human exposures. Both dogs are up to date on their rabies vaccinations and received a booster. Colchester free rabies vaccination clinic is on March 18th from 5:00PM to 6:30PM at the Colchester Highway Garage, 6292 River Rd, Downsville, NY 13755.

Once infected, rabies is a virus that has 100% fatality rate when left untreated, in mammals including humans. Public Health recommends the following precautions to protect yourself and your family from possible exposure to rabies:

- Report any sick or strange acting wildlife
- Vaccinate pets and livestock. New York State law requires that all dogs, cats and ferrets be vaccinated against rabies by 4 months of age. Vaccinating your domestic animal not only provides protection for the animal, but vaccinated pets act as a barrier to keep the rabies virus from spreading between wild animals and people.
- Vaccination is also recommended for livestock with frequent human contact.
- Do not feed wildlife or stray animals and discourage them from seeking food near your home.
- Do not feed strays. According to Public Health Law an owner is defined as any person keeping, harboring, or having charge or control of or permitting any dog, cat or domesticated ferret to remain on or be lodged or fed within such person's house yard or premises.
- Do not approach an unknown animal, either wild or domestic, especially if it is acting in a strange or unusual manner.
- Report all animal bites and any contact with bats to the Health Department in your county. Human rabies can be prevented after exposure by administering a series of shots.
- Keep garbage cans tightly covered and avoid storing any food outside.
- Children should be instructed to tell an adult immediately if they were bitten or scratched by any animal.
- If a pet not up to date on its rabies vaccinations comes in contact with rabid or suspected rabid animal the pet must be quarantined for six months.
- Vaccinated pets that come in contact with rabid or suspected rabies animal must be given a booster rabies vaccination within five days of the contact.

Exposure to rabies can be fatal for a human or a pet. Be sure your dogs, cats and ferrets are up to date on their rabies vaccinations. Vaccinated pets serve as a buffer between rabid wildlife and man. Protect them, and you may reduce your risk of exposure to rabies.

Public Health recommends that pet owners take advantage of any of the free remaining rabies clinics for dogs, cats and ferrets in Delaware County. Pre-registration is suggested for all clinics. You can pre-register at <http://health.ny.gov/go2clinic>.

# TAX GUIDE

## Why am I being selected for an audit?

Selection for an audit does not always suggest there's a problem. The IRS uses several different selection methods:

- Random selection and computer screening - sometimes returns are selected based solely on a statistical formula. We compare your tax return against "norms" for similar returns. We develop these "norms" from audits of a statistically valid random sample of returns, as part of the National Research Program the IRS conducts. The IRS uses this program to update return selection information.

- Related examinations – we may select your returns when they involve issues or transactions with other taxpayers, such as business partners or investors, whose returns were selected for audit. Note: filing an amended return does not affect the selection process of the original return. However, amended returns also go through a screening process and the amended return may be selected for audit. Additionally, a refund is not necessarily a trigger for an audit.

How am I notified?

Should your account be selected for audit, we will notify you by mail. We won't initiate an audit by telephone.

Assistance is available to help you understand the letter/notice received:

- Understanding your IRS notice or letter
- Topic No. 654, Understanding Your CP75 or CP75A

Notice Request for Supporting Documentation

How will the IRS conduct my audit?

The IRS conducts audits either by mail or through an in-person interview to review your records. The interview may be at an IRS office (office audit) or at the taxpayer's home, place of business, or accountant's/representative's office (field audit). Remember, you will be contacted initially by mail. The IRS will provide all contact information and instructions in the letter you receive.

If we conduct your audit by mail, our letter will request additional information about certain items shown on the tax return such as income, expenses, and itemized deductions. If you have too many books or records to mail, you can request a face-to-face audit. The IRS will provide contact information and instructions in the letter you receive. Depending on the issues in your audit, IRS examiners may use one of these Audit Techniques Guides to assist them. These guides will give you an idea of what to expect.
